

REGISTRATION GUIDE TO RESHELL SOFTWARE

INDEX:

1. GENERAL INFORMATION
2. REGISTRATION GUIDE

1. GENERAL INFORMATION

This guide contains the correct procedure for entering the software page <http://software.roenest.com/> and using the ReShell tools. For technical clarifications, please contact the technical staff of RoenEstSpA.

Contacts:

Product Manager Mauro Luppi, Engineer

Email: mauro.luppi@roenest.com Phone: +3904811988910

Product Specialist IztokHumar

Email: iztok.humar@roenest.com Phone: +3904811988923

2. REGISTRATION GUIDE

To access the ReShell product configuration software, type the following link in the toolbar of your browser:

<http://software.roenest.com/>

The following page will be displayed:

Fig.1 screen access software.

If you are not yet registered click on *"Not yet registered"*. After clicking, the following page will be displayed:

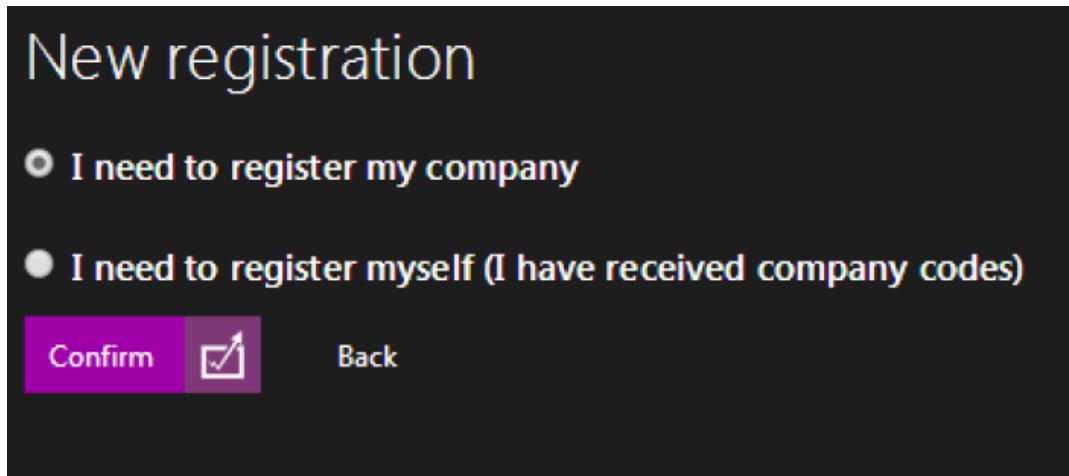

Fig.2 Pre-registration page.

At this stage select your registration mode, which can be as a single person or as a company. In this guide the first one is selected:

"I need to register my company"

Once you selected the registration mode, click on *"Confirm"*. The following page will be displayed:

The screenshot shows a 'Company registration' form with the following fields and options:

- Company: [Text input]
- Email: [Text input]
- Country: Afghanistan (dropdown menu)
- City: [Text input]
- Address: [Text input]
- ZIP: [Text input]
- Phone: [Text input]
- Number of users: [Text input, circled in red with an arrow]
- Interests (select all that apply):
 - Shell and tube
 - Finned pack
 - Unit coolers and re-circulating condensers
- Captcha: [Image showing 'away']
- Get another code: [Text input]
- Buttons: Confirm, Back

Fig.3 Registration page: company data.

In this section it is essential to enter the correct email address which will be used to access the software portal and define the correct number of users. The number of users is an important parameter which indicates the actual number of simultaneous accesses allowed.

For Ex:

Number of registered users 10 = max. number of users who can access simultaneously the software portal.

In this registration section it is also important to click on the software area you are interested in:

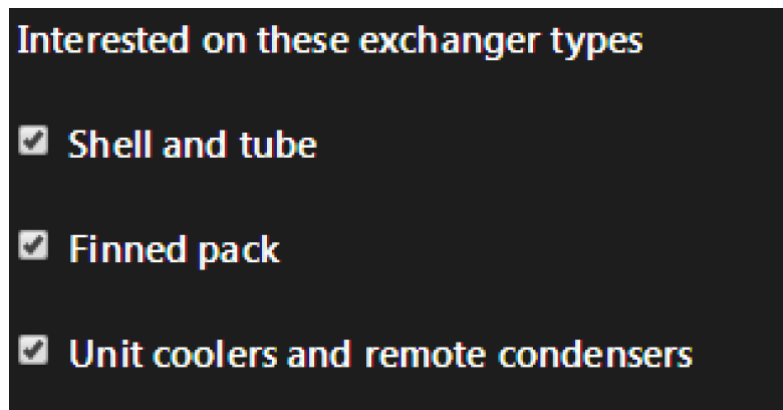

Fig.4Registration page: company data-software selection.

In this registration section you can either choose one single software area or all three as shown in figure 3.

Once you have made your choice, click on "**Confirm**". After confirming the selected choice the following page will be displayed.

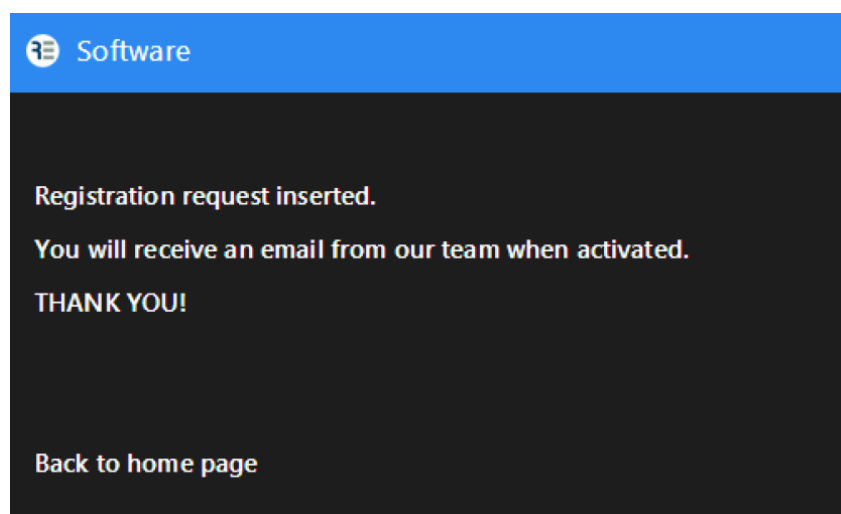

Fig.5 Screen indicating successful registration.

At this point, you can click on *"Back to home page"* and you will return to the page shown in figure 1. The authorized technical staff of RoenEst SpA will receive an email with the data of the newly registered user. The user's activation will be done by automatic email. You will receive four company codes as shown in the following figure by email:

Dear sirs,

here you can find your company codes for Roen Est software

COMPANY CODE 1: 02BAC98E
COMPANY CODE 2: 5982C6A0
COMPANY CODE 3: 809CBD34
COMPANY CODE 4: 6B3BB023

With these codes you can register multiple user accounts.

To register your user account please connect to <http://software.roenest.com>

Fig.6 Company Code.

Please follow the email instructions and by clicking on the link you will be taken to page 1.
Click again on "*Not yet registered*" and the following page will be displayed:

Fig7 Page for entering Company Code.

In this section enter the four company codes received by email; it is very important to enter the same email address previously used. At this stage you activate the user.

If at the stage of activation and registration of the company data you entered a number of users larger than 1, the four company codes received by email to activate the user or users must be used a number of times equal to the number of activations required.

For ex: if you entered 10 users in the figure 3 then you will use the company codes 10 times according to the given procedure.

Once you have performed this operation the following page will be displayed confirming that the user will receive an email with all the information required to enter the portal the first time.

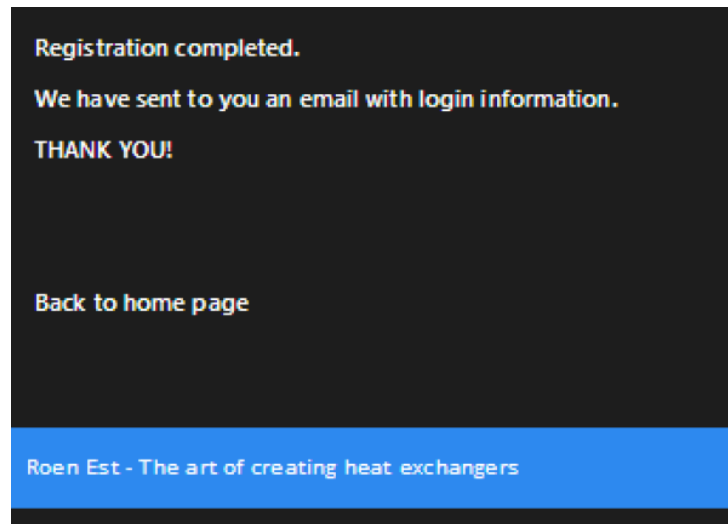

Fig. 8 registration completed screen.

After this last section you will receive the username at the same email address entered for the registration and a temporary password to use for the first access and which can then be changed.
